

THE SOURCE OF PROPHECY

A Teaching for a Baseline

June 26, 2023

YAHWEH IS LEADING:

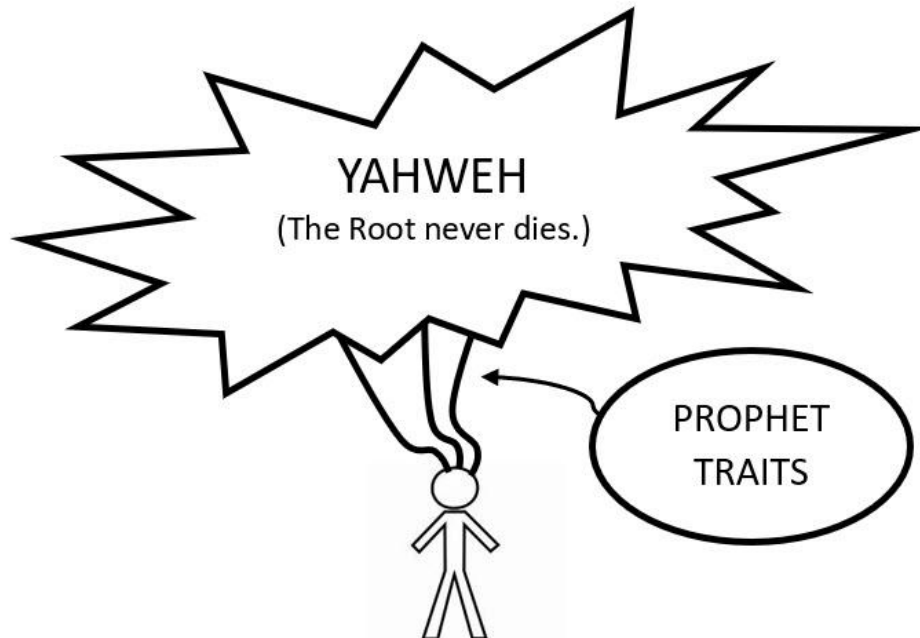

Here is the disconnect: People look at prophecy as just a word a person would speak. But what exactly is prophecy? Prophecy is a gift from the Holy Spirit, extended from Yahweh. Prophecy is not a word sent out of order without a root origin. Prophetic placements stem from Yahweh Himself. It doesn't matter if someone gives a prophetic saying. Having them say a word is not the ROOT from where the prophetic placement began. The stream of prophecy always exists because it stems from Yahweh, regardless of whether any prophet exists.

When Yahweh grants it, the prophet dips into the prophet trait yielded in Yahweh, but the prophet is not the root of the nature of the prophetic saying.

The prophet is unable to provide the power to make the spoken words come forward in natural living. The source (or root) of prophecy is not from the gift residing in or being used within the human; rather, the deity invoked is the source, the root of the stemming from where the gift comes. The prophet is working with the Holy Spirit through the gift as an extension of Yahweh.

The root of prophecy can never be stripped away because it's not sustained based on seeing the gift in operation. The Root of prophecy (Yahweh) is always existing. The gift is the reflection/result of what stems from the Power Source, Yahweh. Out from Yahweh comes the

traits to enable the prophet to work in that office, produced in visible office duties as a gift.

Now, look at the gift as a proving prophetic placing, a gauge of the time is measured to keep a pushing out of events. Drinking from this stream in Yahweh (the prophet's office) is a direct enablement from Yahweh Himself. When there is no word of the Lord, there is no prophet hearing and seeing from the prophet's office stemmed in Yahweh to give out, but it doesn't mean that Yahweh is dead and no longer has a way to engage His creation.

A prophet trait enables a human to say changing words that shape a territory—quite different than the general prophecy gift bestowed upon the Body as Yahweh Great Holy Spirit yields.

The stream in this prophet placement doesn't split or morph into something else when viewing a gender, to say one set of words with one and a different way with the other gender. The prophet hears Yahweh, enabled to engage with lighter hindrance due to

having their spirit upgraded to deal with Yahweh in this placement. The source of prophecy through Yahweh produces enablement within the servant to hear Yahweh give you the words to say.

How can We make it plain? With prophecy, the office person isn't the one who gives Yahweh the words. If the words stemmed FIRST from the human, then it would be logical that a human would shut Me down and say I no longer speak. But the PROPHETIC NATURE of the office stems in Yahweh due to how YAHWEH PROVIDES THE WORDS and ensures a power backing brings the will forward into natural placement.

There is no way to turn Me off like when you turn off a device and have Yahweh sit in silence due to how the early church leaders died in natural placements. They are humans. Yahweh is the One True God. I do not have an ending in natural placements as if a mortal. Yahweh exists, standing outside of natural time.

I look down from Heaven and see it—how the plan is laid out into eternity. People have to choose Me, yet Yahweh already knows who will. And this is where both major sides in the churches get ugly in their wording. How can I already know all things? I am Alpha and Omega. I look down from Heaven and say I want a certain will brought forward into that natural time, spoken by someone with delegated governing in an office placement, who is released into their work sphere and can speak on Yahweh's behalf. I FIRST say the plan. The prophet hears Yahweh. Yahweh says who the person or the way of dealing is with.

Yahweh gives His prophet stream and a prophet office covenant in a power backing. **AND THIS IS WHY DECLARING YAHWEH TO DO ANYTHING IS OUT OF ORDER. YAHWEH HAS TO BE THE ROOT OF WHERE THE MESSAGE STEMS FROM.** And when the office prophet INVOKES Yahweh, Yahweh weighs the covenant established with the prophet and sees if the spoken will is Yahweh's plan.

And in other cases, a powerful prophet can operate AT WILL within their territorial governing after Yahweh has given them heavy spiritual stripping to come under order and stand in service chains with Yahweh's will. Yahweh releases servants to operate within a certain work range, knowing there will be an honor yielded to operate in pleasing ways to the Great King.
