YAHWEH IS LEADING:

My rebuke is going to be multifold. With your way of looking, servant, based on the way you style your hair, they would think you are either black, mixed-race, or Hispanic. But take a way to look; you are also European. Put your main DNA percentages here.

SEERSGATE:

AFRICA (55.4 %)

Nigerian – 33.3 %

Sierra Leonean – 19.0 %

Kenyan – 3.1 %

EUROPE (35.6 %)

Scandinavian – 26.1 %

Balkan – 5.8 %

Italian – 2.4 %

Baltic – 1.3 %

ASIA (9 %)

West Asian – 7.7 %

Inuit – 1.3 %

YAHWEH IS LEADING:

There is no ill way in what you will give. You are a mixed-race person, carrying the look of those other races in presentation, but your natural dad, by DNA, is a white man, and it doesn't matter what is on the skin part that you wear concerning what We give you to present to the people. Servant, be content to look this way. We made you a mixed way so you can build up the work with all races. And your Asian heritage will come out in a powerful way. Tell them all that Yahweh would bring you. Do not hold back from saying what Yahweh wills.

With this person mentioned, Yahweh will show a plan of understanding so that all would have an order not based on secondhand hearing from social media. I did actually say that I took that prophet. And why would I label him as a man with the title of a prophet? He is in the delegated office placement without a repentant plan needed to have the layout within—the wiring to be a prophet—yet he would have the ability to drink, receive, or take in his hearing and seeing from demons.

Seersgate, a person can be a prophet yet turn away. The upgrading within that person can still lead them to have spiritual engagement from any spirit, not only with angels. How do I show what a person in the prophet office placement can take on? Bring up your notes in the understanding of what the prophet's spirit deals with.

(EXCERPT NOT GIVEN HERE.)

YAHWEH IS STILL LEADING IN THIS CONVERSATION:

How does this relate to the prophet J-, who died? This is to show that a person may carry an enablement to be an office prophet but turn in their continuing service to Yahweh and

go to worship false gods. See it clearly. I say My great will many years ahead, but the Church will not hear Me until they see people tell their version in a documentary. Why didn't they seek Me out for wisdom and discernment? Why do they make social media videos to give their opinion about how a dead person acted? Isn't that a form of cowardice?

To wait for the person to die or to wait for a documentary to be released before stating something is to say your way of guided thinking, for most will not say you knew of the dead man's nature until a crowd came forward and made their statements about a dead man who I took.

Now, see how these influencers all flock in groups. They follow each other and label it as having wisdom. Seersgate, where is the real seeing and hearing placement in Yahweh? The Church is like a flock of blind ones. One after another, they share their opinion. They bring their thoughts to the table. If Yahweh gives His leading to prepare the people for an evil worker, then there must be sayings to give awareness. They act in hindered ways of spiritual seeing and operate in low ways of discernment.

If real servants knew of the level of deception that came from that dead prophet, and you kept it in your private chamber, only sharing the wisdom with your friends, how can I give you real ways to prepare the Church of others who are bringing heresies and deception into the Church? If you hear Me say to go and warn the Church, but you go and share the wisdom with your own inner circle and keep it in your little group, how can I give you real work that will build and cover those under your influence? I will not look at your sayings that you knew with any worth when you do not warn the others.

Those on that media outlet mentioned they were afraid of that dead prophet's so-called power. Yahweh will not give God-level traits to any human. Yahweh gives impartation of His placements to do the work through a human. But no office-level worker is above

being put in their place when they are in rebellion, moving against Yahweh, doing what they feel is right in their own eyes.

If that dead man is sitting in Yahweh's will, would Yahweh bring contradiction, confusion, and a turning to seek to worship the created? Would Yahweh bring honor through His word, using the one who stays in the sinful living? I will honor the COVENANT, and through death, I will take those who live in continual sin in office work, shaming the work, bringing a way of disgust, hurting and bringing Me dishonor, misusing the name of Yahweh. If the dead man operated in Yahweh's power, would there be a reason to fear dealing with him when he lived in natural ways? If the dead man carried My power, I would not let fear take over when there is a need to bring correction or a course adjustment.

I bring rebuke and a course correction in ten days. Servant, your way will take in this major report and yield it in a presentation form as a catalyst. Yield this section as a warning of what's coming—just this. Let's prepare. You will no longer wait for these social media workers who give their opinions after the fact. Stand up, prophets of Yahweh. The office is still an active placement, and I will back up My workers as judges in this judgment of the Church.
